

MULTI USE TROOP READINESS CENTER – Hunter AAF – Savannah GA

**Proposed Recipient:** Georgia Army National Guard

**Address of Recipient:** HUNTER ARMY AVIATION FACILITY; Savannah, Georgia

**Amount of Request:** \$10.5 Million

**Explanation of Request**

**Purpose:** This project is to replace a currently inadequate Troop Readiness Center at Hunter Army Aviation Facility. Guardsmen assigned to Hunter AAF are conducting training for complex military operations in a temporary facility that is ill-equipped, adding additional burdens to the deployment preparations. The Multi-Use Readiness Center would include multi-use storage facilities, including flammable material and controlled waste facilities, vehicle parking and storage, fully communication capabilities, and physical security measures. While not being employed as a Troop deployment facility, the Readiness Center can also provide space for command and control, administrative purposes and general training.

**Why is it a good use of Taxpayer funds:** The facility will improve working conditions and enhance mission preparations and exercises for the Georgia National Guard as they prepare for upcoming deployments and maintain overall military readiness. This facility will also consolidate maintenance and storage of military equipment to prevent weather damage and reduce wear.
